## Prize for a parent

Teena Willoughby, BA, gets a congratulatory kiss from daughter Karen while son Mark displays her hard earned degree. Willoughby had to complete much of her Psychology degree part-time, sometimes at night and by correspondence. She still achieved an 87 percent graduating average and won both the Chancellor's Prize in Social Science (Honors Program) and the The R.B. Liddy Gold Medal (Psychology). Convocation stories and pictures are published on Pages 10 - 14.
